Machines & Tools for the Professional Tile Installer This is just a short order form. For RUBI's full line of products, please visit our website.

ABOUT RUBI GROUP

Introduction.....04-09

ELECTRIC TILE CUTTING

Electric Cutting and Tile Saws.....10-19

Accessories for Tile Saws.....20-21

DIAMOND BLADES

Diamond blades (dry & wet cut).....22-26

CUTTING & GRINDING

Grinding wheels and blades.....27

Blades and Polishing pads.....28

Pro-Edger, Bevelling and Mitering Accesories.....29-30

MANUAL TILE CUTTING

Manual Tile Cutters.....31-40

Scoring Wheels.....41-44

SLAB SYSTEM. Cutting and handling tools for large format tiles.

Cutting.....45-47

Handling.....48-56

Suction Cups.....57-58

MIXING

Electric Mixers.....59-60

Mixing Paddles.....61

DRILLING

Tools for Drilling Tiles, Stoneware, Marble, Granite and other materials..... 62-65

TOOLS For fixing tiles and finishings

Trowels & Notched Trowels..... 66-68

Accessories for Tiling..... 69-72

ACCESSORIES For tile fixing and finishing

Tile Spacers..... 73-74

Fast Leveling Systems..... 75-77

PRODUCTS FOR CONSTRUCTION

Plastic Buckets for Construction..... 78

SAFETY EQUIPMENT

Safety equipment for building professionals 79

CLEANING AND FINISHING

Products & Accessories for cleaning and finishing of tiles..... 80-82

PAL BOX AND DISPLAYS

Palbox and displays..... 83-85

PURPOSE

BETTER PROFESSIONALS, BETTER PLACES

Our "Better professionals. Better places" purpose explains our approach in the two key areas that improve the quality and performance of our industry: those people whose trade is visible to everybody so that it can be admired, along with the places transformed by their creativity. We want to change the future by being and creating better professionals and building better places in favour of a better world.

RUBI GROUP

MISSION

Our mission is to provide outstanding solutions for construction professionals, through the design, manufacture and distribution of tools and equipment which ensure maximum efficiency, cost-effectiveness and safety for optimal ceramic tile laying, thereby maintaining the identity of the Boada brothers as well as their corporate legacy so that we can all build a better future together.

VISION

Our vision is to be a leading company at global level in solutions for cutting and laying tiles as a result of technological innovation and proximity to the user, thus improving the quality of life of our customers, partners, shareholders and society.

THE BEST OPTION FOR EACH JOB SINCE 1951

Our history began in 1951, when brothers Joan and Antoni Boada i Sucarrats obtained the patent for their innovative tool for cutting hydraulic mosaic, glazed and ceramic tiles. Together, they produced 25 units in the garage of their house in Rubí, Catalonia. The new “RUBI mosaic and tile cutter” made its appearance at the first National Invention Exhibition in Barcelona, where it won the diploma of honour and gold medal.

The Boada brothers devoted themselves to developing and sharing their innovative technology with other professionals. In 1969, Mr Miquel Escayol i Vila joined them and the limited company Hermanos Boada S.A. was created.

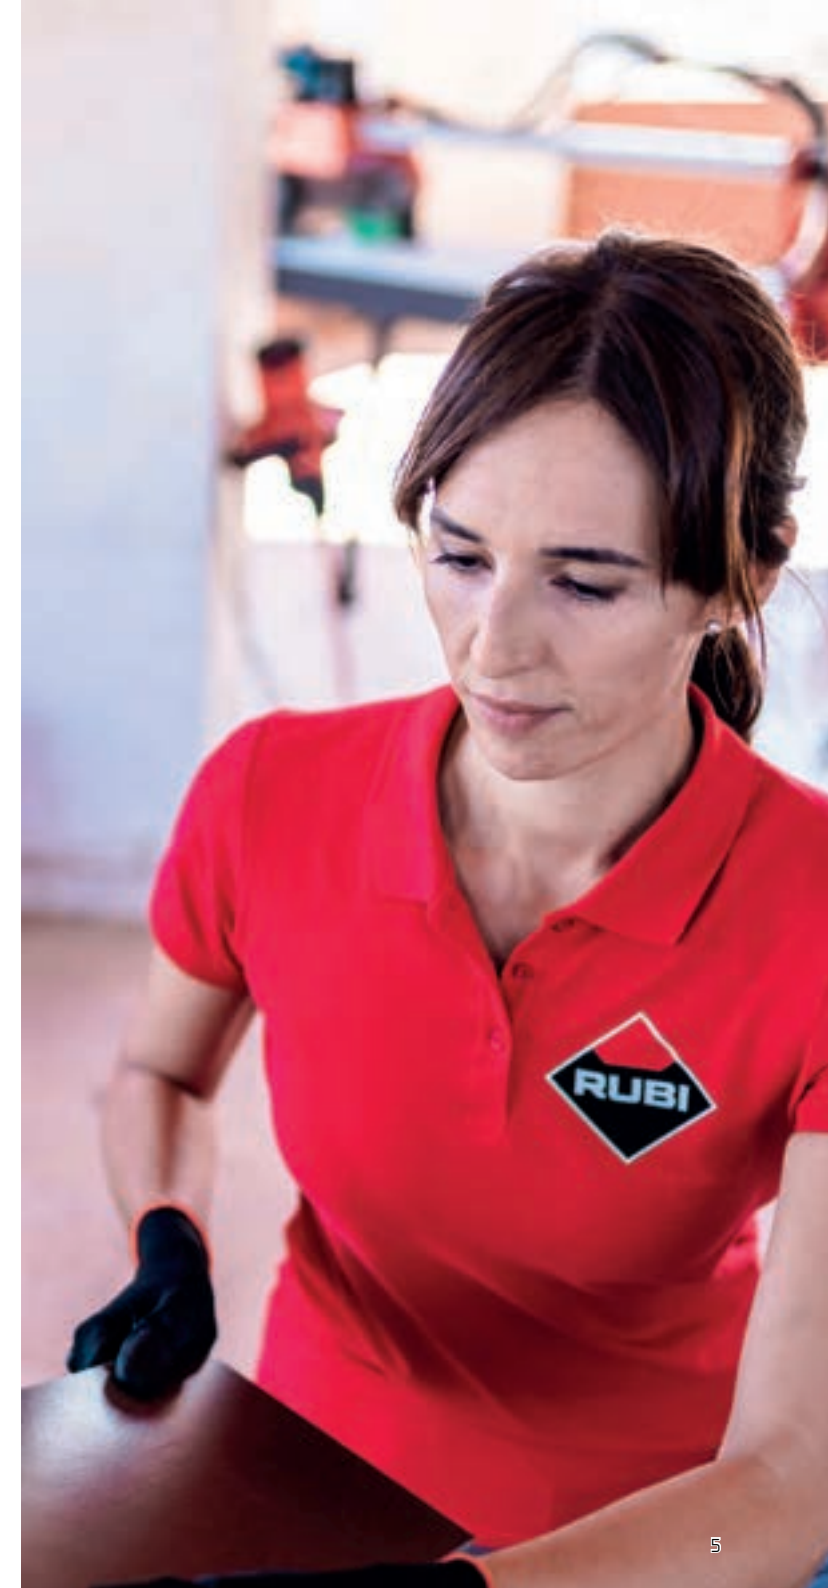

Since then, the reputation of the company has spread throughout the world and the RUBI name has become synonymous with truly cutting-edge solutions that offer top craftsmen an unprecedented level of quality, efficiency and professionalism.

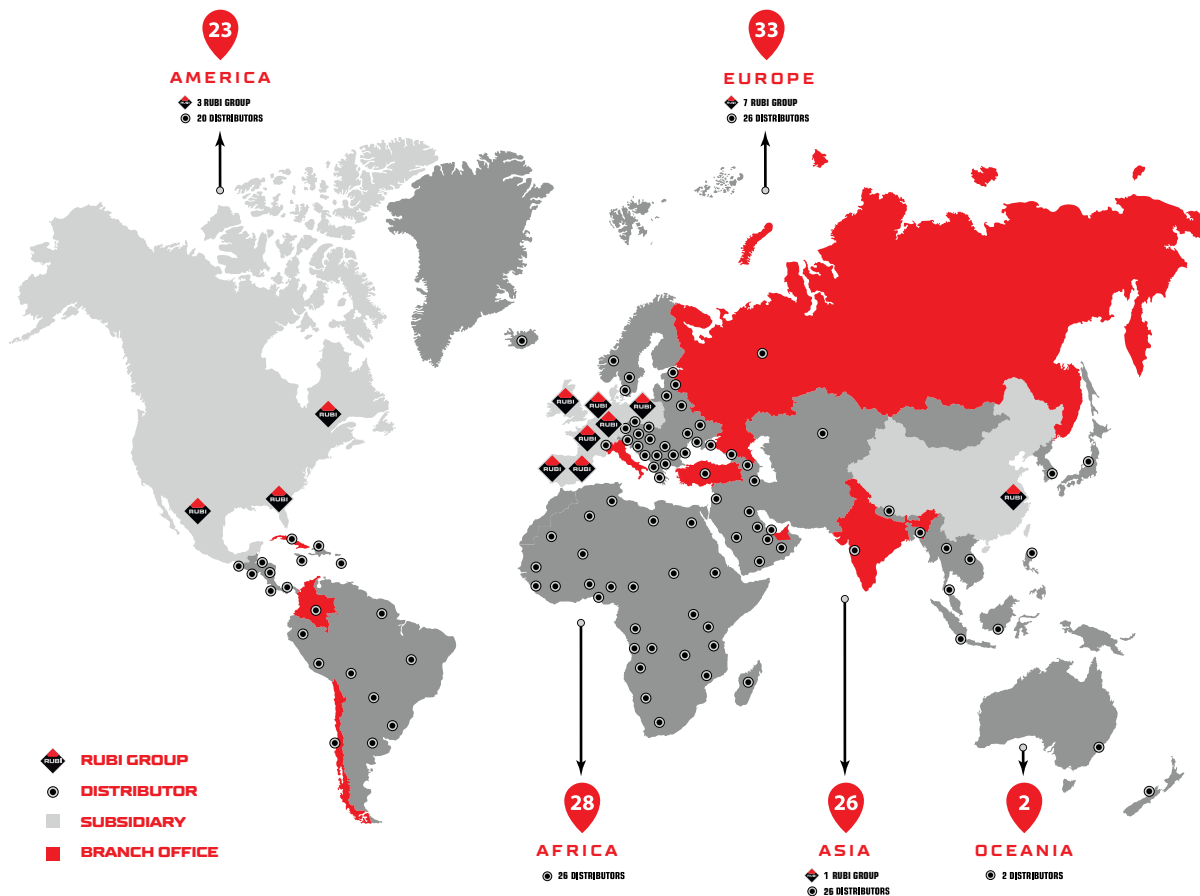

Thus, the RUBI Group specialises in the design, manufacture and distribution of machinery and tools for cutting, laying and maintaining tiles. Placing installers at the centre of our strategy means that innovation, high product quality and excellence are always present in our product range.

Currently, the RUBI brand is recognised by the most demanding construction and design professionals in more than 120 countries, thanks to our large international network of subsidiaries and branches.

The RUBI team works with the opportunities that new trends and technologies offer, as well as the advances relating to communication, safety and environmental responsibility, in order to lead in the construction sector, while staying faithful to our core values and devotion to providing solutions to the needs of tile installers around the world.

WE PROVIDE QUALITY AND INNOVATION TO THE WORLD

- ◆ +650 People in the RUBI Team
- ◆ 3 Production and logistics centres
- ◆ 11 International subsidiaries
- ◆ 1 Corporate museum
- ◆ 120 Countries with RUBI brand distribution
- ◆ +100 Official distributors

The year 1951 marked a milestone in the Spanish construction industry, when the young Boada brothers invented the professional manual cutter for hydraulic mosaic. This ground-breaking tool, christened with the name of RUBI, served as the stepping stone for developing Germans Boada, S.A. Currently, this multinational company designs, manufactures and distributes best-seller equipment and tools for cutting and laying tiles.

The group headquarters are located in Rubi, near Barcelona, and the logistics and industrial center is established in Santa Oliva (Tarragona). The productive and logistics center, recently expanded to 220.000 Sqf., counts on an automated warehouse and the latest technology in order management. These facilities and resources, combined with optimal inventory management, guarantee a daily service to major markets with tight

deadlines, satisfying the current needs multiple distribution channels worldwide. Its international vocation, very present since its creation, makes Germans Boada S.A. a global company with a presence in over 100 countries through an extensive network of branches and participated companies.

RUBI GROUP USA

In 1999, due to the increasing satisfaction of thousands of tile installers worldwide, RUBI Group USA opened its doors to the most ambitious and skilled construction professionals in the United States. Strictly committed to its customers and distributors, the company is currently considered the leader manufacturer of tile laying equipment and related building tools in North America.

RUBI Group USA is heavily investing in the future of the tile industry. The company recognizes that in order to become a top influencer in the construction field, it has to be solidly pledged to the latest technology trends. Accordingly, RUBI Group USA offers cutting edge tile tools with an unparalleled level of guarantee.

Beyond history, sales or technology, the success of RUBI Group USA is rooted in a team of specialists and customer representatives who are always ready to face any kind of challenge. The team is also actively participating in the social conversation, monitoring what thousands of tile experts or knowledge seekers have to say about the brand. To stay tuned for the latest updates, events, and offers, visit us on Facebook, Twitter, YouTube and our blog Tiling World.

INNOVATION & QUALITY

The essence of the RUBI brand is "a job well done". The perfect synthesis of our commitment to the goal of contributing best practices and performance to tiling worldwide. The above statement can be clearly appreciated in everything we do, and in the way our customers can use the products that we manufacture to carry out their work with special attention to quality, creativity and attention to detail.

INNOVATION

We are constantly researching and developing new solutions based on the evolution of market and technology trends, our own experience and ongoing conversations with our partners and other professionals.

QUALITY

We only use materials of the highest quality and we work in compliance with strict design and manufacturing standards in order to offer tools with the performance levels that our users expect.

GUARANTEE

We strive to offer greater durability in our products and a peace of mind that comes from our long track record, also backed up by a customer support service and constant communication with the same global nature.

SOLUTIONS

Understanding and helping to shape our industry for generations has allowed us to create a wide range of tools that provide excellence and efficiency in the cutting and laying of tiles.

TECHNOLOGICAL LEADERSHIP

Patented products.

Protected Industrial Designs.

**A JOB
WELL DONE**

INSTALLATION IN PHASES

RUBI offers solutions that provide excellence in each step of the tiling process in order to guarantee quality, efficiency and creativity from start to finish. This is the basis for a clear marking on our entire range of products, with each product clearly indicating the stage it is intended for:

This approach provides a clear visual solution for product displays that directs the customer to the product that is suitable for the work in question.

1. Preparation

This stage includes all the processes prior to the installation of ceramic tiles. Starting with the preparation and levelling of the substrates and the verification of the levels. Followed by the setting out and design of the joint pattern and finishing with the preparation and application of the ceramic adhesive.

2. Cutting and Drilling

Although, after the preparation of the adhesive, this logically takes us to the installation stage, RUBI has included the cutting and drilling phase in second place. The reason is very simple, if we take into account that the tile needs to be cut (or drilled), it cannot be installed until this step has been carried out.

All installations require tiles to be adapted and resized to the installation space and, whether it is to a greater or lesser extent, a ceramic tile will always have to be cut (or drilled).

3. Installation

In this stage, we mainly focus on bringing together all the necessary tools to ensure proper handling and installation of the tile, how to obtain the best results both in flatness and alignment in order to make the setting-out design a reality with maximum precision.

4. Grouting

As its name indicates, this stage includes all the tools necessary for the filling and definition of the tile joint, as well as the removal of excess material and a first cleaning stage.

5. Cleaning

As it must do, the last stage brings together everything that is necessary to deliver the perfect job. The final cleaning of any ceramic tile installation process will always make the first impression on any user. For this reason, it is as important as any of the previous stages.

DC-250 PYTHON

Moving head machine, versatility and precision
For Wall tiles, floor tiles, porcelain tiles and other materials.

- 1 Motor assembly mounted on sliding bearings for maximum precision and reliability. Foldable at 45° for perfect miter. Direct drive motor.
- 2 Steel plate structure. Sturdy and maximum resistance to working conditions.
- 3 Patented ZERO DUST system exclusive to RUBI and certified by TNO (Organisation for Applied Scientific Research), for safe exposure because of reduction of respirable dust particles generated during cutting.
- 4 C3 Python cooling system. New adjustable refrigeration system. Allows to adjust the point of water's fall depending on the material's thickness, getting a direct impact of the water in the cutting point. This allows to increase the refrigeration's efficiency and to reduce water dispersion.

- Foldable legs with wheels for an easier transportation and removable tables for easy cleaning of the machine.
- Adjustable aluminum square (0° - 60°) with lateral stop for repetitive cuts at 0° and 45°.
- Safety protector for turbo and segmented blades.
- Blade cooling by water (50W water pump) with flow control.
- Includes Premium Arrowhead 10" Blade.
- Supplied with cable.

The cutting capacities can vary depending on the head position, special flanges and blade diameter.

- 1 Reinforced aluminum chassis with innovative triple beam system and steel sides. Improves the stability and rigidity of the chassis.
- 2 Reinforced cutting guide for a better cut finish.
- 3 New adjustable cooling system. Increases cooling efficiency and reduces water dispersion.
- 4 High performance plunge effect. Cutting height adjustment.

- Includes transport handle and off-road type reinforced wheels, which provide better transportability and handling of the machine.
- Steel double settling system for improved efficiency and water recovery.
- Angular measurement with aluminum square adjustable from 0° to 60° for repetitive cuts.
- Includes reinforced folding legs with folding-prevention system and quick lock.
- External and easy to remove water tank with 8 gal. (30 L) capacity.
- Includes improved splash guard system with auto-sliding protective cover.
- Patented ZERO DUST system exclusive to RUBI certified by the TNO (Organisation for Applied Scientific Research), for safe exposure thanks to the reduction of the breathable dust particles generated during the cut.
- Ergonomic bi-material handle for comfortable operation of the cutting head.
- Earth integrated into the chassis.
- Machine supplied with cable.

DS-250 N

Mobile head machine for high accuracy, ideal for miter cuts.
For Wall tiles, Floor tiles, Porcelain tiles, Marble, Granite and other materials.

- 1** Motor assembly mounted on sliding bearings for maximum precision and reliability. Perfect finishes.
- 2** Equipped with ZERO DUST system. Tested and certified by TNO (Organisation for Applied Scientific Research).
- 3** Wheels and handle included. Easy transport.
- 4** Aluminum structure. Lighter cutter with maximum resistance to working conditions.

- Removable aluminum tables for easy cleaning of the machine.
- With thermic security switch.
- Water pump refrigeration of blade with flow control valve.
- With a double set of flanges, one especially designed for miter cuts.
- Motor assembly mounted on sliding bearings for maximum accuracy miter cuts.
- Safety protector for segmented blades.
- With lateral stop for repetitive cuts.
- Retractable legs with "shield" function and wheels for easy transportation.
- Removable water tank system.
- 2mW (milliwatt) line laser for precise cut.
- Spirit level for easy field installation.
- Blade Included.
- Machine supplied with cable.
- Supplied with new ZERO DUST system already assembled. Also provided with a second anti-splash standard protector

2
Cut & Drill

- 1 36 inch rip and 25 inch square tile on diagonal will allow users to manage large tile with ease
- 2 Powerful 15 amp motor to cleanly cut through the toughest tile
- 3 Advanced water spray system includes the Rubi Zero Dust water spray capture system to bring the finest water particles back to the tank and keep the work area clean
- 4 Machined aluminum table with overmold glides along a patented rail system with the precision demanded by tile professionals

- Large 5-gallon water tub separates waste water from sediment to extend pump life and provide cleaner water to the blade.
- The Python cooling system's adjustable height brings water directly to the cut for improved blade cooling and a cleaner cut.
- Adjustable laser guide enables fast alignment for custom diagonals, L-cuts, and non-through cuts by aligning the laser line with each mark for the cut.
- Quick-Set stand helps setup and breakdown the saw quickly while the 8 inch wheels provide mobility for the entire saw across the jobsite in one simple trip.
- Patented Python cooling system efficiently cools the blade.
- Patented rail design allows for fast table adjustments and help protect the table roller while cleaning the saw.
- Patented Easy-Ratchet stand locking system automatically locks stand in both operating and transport positions with an intuitive quick release for fast setup.
- The toolless arbor lock and onboard tool storage makes blade changing easy.

DT-7IN MAX

Portable over-head 7" tile saw with plunging head which tilts for 0°, 22.5° and 45° miters.
Recommended for cutting ceramic, porcelain, stone and glass tile.

- 1 Incorporates tubular steel support and foldable, to transport the machine easily.
- 2 Universal motor with replaceable brushes.
- 3 With lateral stop for repetitive cuts with adjustment from 0° to 45°.
- 4 Premium Laser-cut Blade: For fast, smooth cuts with long life.

- Tilting cutting head adjusts for precise 22.5° and 45° bevel cuts.
- Water tank with level indication min. and max.
- Maximum capacity: 4.27 gal / 16.2 L
- Aluminum main table. Rear water tray extensions in reinforced plastic.

The cutting capacities may vary depending on the position of the head, special flanges and blade diameter.

- 1 Machined aluminum table with tilting right table for 22.5° and 45° miter cuts.
- 2 Self-aligning extruded aluminum fence with single action lever for fast setup of accurate and repetitive cuts.
- 3 Soft-Slip aluminum angle guide glides smoothly along the aluminum fence for 0° to 45° diagonal cuts.
- 4 Transparent splash guard provides a clear view of the blade and the line of cut for precision alignment.

- Perfect for repairs and renovations. Ideal for indoor work.
- Anti-splash system that keeps dry the work area by reducing splash production.
- Detachable rear table support allows straight cuts up to 24" in length.
- On-board tool storage for convenient blade changes.
- Integrated carry handle for easy portability to work sites.
- Direct drive 1.0 HP induction motor with thermal protection.
- Large water tank provides continuous water to cut to reduce dust and cool blade.
- Tubular steel chassis with reinforced leg supports.

ROLLER TABLE EXTENSION

- With rollers to simplify movement of the tiles.
- With adjustable foldable legs.
- Work surface 26 9/16"x22 5/8" (675x575mm) and maximum weight 154lb (70kg).
- Installation on both sides of the machine.

	REF		
ROLLER TABLE EXTENSION DU/DC/DCX/DS/DX (FROM 2013)	51914	SUPERPRO	1

ACCESSORY TABLE 50IN DT-10IN MAX

- For enhanced holding of large tiles.
- Suitable DT-10in MAX (Ref. 26994).
- Included Stand extension legs to prevent the overturning of the stand.
- Main table made in aluminum with top rubber layer.
- Guides made in extruded aluminum with reinforcement cross bars.

	REF		
ACCESSORY TABLE 50IN DT-10IN MAX	58907	SUPERPRO	1

ADJUSTABLE LENGTH LATERAL STOP DC/DCX/DS/DX

- For fixing large format tiles.
- Adjustable to the maximum length of electric cutter.
- Tile is held laterally thus avoiding any movement.
- Especially suitable for blocking and execution of repetitive miter.

	REF		
ADJUSTABLE LENGTH LATERAL STOP DC/DCX/DS/DX	54844	SUPERPRO	1

SET OF FLANGES FOR MITERING CUTS

- Great accuracy when making miters cuts.
- Available in several models.

16901	SUPERPRO	√	13/16"	5/8"	14 15/16x8 1/4x6 11/16"	9 Lb	9.9 Lb	1	24

- 1 It makes miter cuts at 45° up to a maximum thickness of 3/4", and with no thickness limitation for beveling.
- 2 Progressive beveling and mitering at different depths to prolong the useful life of the grinding wheel and make beveling easier for the user.
- 3 Compatible with 4 1/2" & 5" (115 & 125 mm) angle grinders with cable or battery that are easily and safely fitted thanks to the joint made with an 5/8" threaded shaft and quick-fastening belt.
- 4 Sealed high-speed bearings, to prevent the ingress of dust generated during the beveling or mitering.

- Highly wear-resistant polyethylene slides.
- A vacuum cleaner can be easily fitted for dust extraction (ZERO-DUST).
- Quick and simple grinding wheel change.
- Chassis with carbon steel sheet.
- Highly friction-resistant white polyethylene slides
- Plastic handle.
- Sealed single-row deep-groove ball bearings.
- 45° x 3/4" (20 mm) grinding wheel included (ref. 16946).
- Compatible with ZERO DUST system by means of a clip for fixing a vacuum cleaner.
- PVC plastic grinding wheel guard.
- Fixing to angle grinder by means of a 9/16" (14 mm) diameter shaft and quick fastening belt.
- Compatible with 4 1/2" & 5" (115 & 125 mm) angle grinders with cable or battery up to 850 W. Up to 3 15/16" (100 mm) diameter handle.
- Progressive wear beveling and mitering is adjustable by 3/8" (10 mm).
- A damp cloth is recommended for cleaning.
- Lubrication is not necessary.

Accessories:

*Some materials with a thickness greater than 9/16" (15 mm) may be difficult to cut manually due to physical characteristics, internal tensions and/or finish. We recommend making sample cuts to determine product compatibility and alternatively suggest cutting these types of material using an electric tile cutter.

- 1** Powerful breaking system (up to 3307 lb), operable with just one hand.
- 2** Accurate with soft slider movements.
- 3** Large cutting capacity, up to 7/8" (21mm) thickness. Ideal for large format tiles*.
- 4** Robust with a foldable structure for high strength and easy transportation.

- Excellent performance breaking system: Clean cuts with soft motion.
- Robust chassis, guides and breaking system.
- Swivel square with central pivot for fast and accurate measurements in angle cutting.
- Adjustable lateral stop for repetitive cuts.
- Support base for excellent tile placement.
- Easy to transport: rubber wheels with bearings and handle.
- Interchangeable scoring wheels ranging from Ø 1/4" - 7/8"
- Includes Ø 1/4" (8 mm) SILVER and Ø 7/8" (22 mm) EXTREME scoring wheels. Reinforced textile bag for transport and protection.
- On models 1300/1550/1800: The reinforced textile bag of these models includes 2 built-in wheels.

Accessories:

Maintenance Kit

TX-MAX

Professional manual cutter with high-performance multipoint breaker.
For professional cutting of all types of ceramic and porcelain tile.

- 1 Highly precise scoring.
- 2 Entire system highly efficient.
- 3 Reinforced components. Heavy duty.
- 4 High breaking power (2646 lb) - MASTER POWER. One-handed operation.

- Head with extra-long aluminum sliders with "self-lubricating" friction bearings.
- Portable breaker with aluminum pressure pad, equipped with plastic protector to avoid marking delicate surfaces. Better visibility of the scoring and cutting zone.
- The pressure pad is locked by a ratchet mechanism and is unlocked by the trigger, allowing one-handed scoring and breaking. Faster use. Increases performance with both thin and thick materials.
- Injected-aluminum base, reinforced with a central rib, for increased strength.
- Floating tables and supplementary arms for large-size ceramic tile, increases cutting stability.
- Rotating square, with central pivot point and lateral end stop. Greater precision in angle cuts.
- Handle with soft grip for better ergonomics and comfort.
- Equipped with Ø5/16" (8 mm) SILVER and Ø 7/8" (22 mm) EXTREME scoring wheels. Compatible with the entire plus line of scoring wheels.
- Includes a carrying case (the 1250 model is equipped with wheels to transport the machine).

* There are some materials over 9/16" (15 mm) thick which, due to their physical properties, possible inner or surface tensions, are difficult to cut manually. It is recommended to make some sample cuts to determine the compatibility of the product.

TR-MAGNET

Suitable for diagonal cuts with a revolving square for high accuracy. Ideal for professional cutting of porcelain tiles and intensive cutting of ceramic tiles.

2
Cut & Drill

- 1 Fast operating system with magnet, for one handed use.
- 2 Reinforced operating material. Increased breaking power.
- 3 Revolving square with central pivot for fast and accurate measurements for cutting angles.
- 4 Floating base with shock absorber for better tile breaking.

- Solid steel guides, Ø13/16" (20 mm), chrome-plated and rectified, with anti-corrosion treatment for increased torsional strength.
- Multipoint breaker 1764 lb (800 kg) of power.
- Heavy-duty metal arms.
- Handle reinforced with SOFT-GRIP.
- Lateral end stop for making repetitive cuts.
- Base extension for large sizes.
- Two-layer base with shock-absorbing effect.
- High-strength aluminum base.
- Interchangeable scoring wheels from 1/4" (6 mm) to 7/8" (22 mm).
- With Ø 3/8" (10mm) SILVER and Ø 7/8" (22mm) EXTREME scoring wheels and carrying case included.

TS-MAX

Authentic & Original: Lightweight and functional with high performance breaker. Ideal for professional cutting of porcelain tiles and intensive cutting of ceramic tiles.

- 1 Progressive breaking system "SMART POWER" adapts to different material hardness.
- 2 Wide base. Greater base surface for higher stability and cutting quality.
- 3 Reinforced components for heavy duty work. High durability.
- 4 Ergonomic handles. Maximum comfort.

- Bigger reinforced base for a higher comfort and better stability when cutting.
- Powerful single point breaker. Up to (1764 lb) 800 kg breaking pressure.
- Double guide for direct view of scoring/cutting line.
- Chromed steel guides, rectified and calibrated, with anti-rust treatment.
- Lateral stop for repetitive straight and 45° cuts.
- Interchangeable scoring wheels ranging from Ø1/4" (6mm) to 7/8" (22 mm).
- Includes Ø 5/16" (8mm) ENDURE and Ø 3/8" (10 mm SILVER) scoring wheels and a transport case with reinforced locks and hinges.

SLAB CUTTER G3

Manual cutting system with connectable guides.
For manual cutting of large porcelain tiles.

- 1 System with movable suction cups integrated in the guides. Special grey rubber suction cups for rough surfaces that won't leave marks on the tile.
- 2 Carriage with lever mechanism for perfect scoring. Extreme roller guide.
- 3 Highly reinforced guides. Easily interconnected by means of an adjustable lever mechanism.
- 4 Transport bag with padded handles and pockets for accessories.

- Breaking system by adjustable nippers with soft-grip handle, which facilitates and ensures progressive breaking of the tile, thus reducing the risk of cracking. 2-in-1 nippers and breaker.
- Ø 7/8" (22 mm) RUBI EXTREME roller guide made of Tungsten Carbide with Titanium Carbide treatment and bearings, to offer better scoring performance and quality.
- Each set contains: Three 44 1/8" (112 cm) guides, 1 marker carriage with 7/8" (22 mm) roller guide, 1 set of nippers and 6 suction cups.
- Transport bag with padded handles and pockets for accessories.

SLAB TRANS MINI

For transporting ceramic sheets and large-format tiles with a maximum recommended size of 60x60" (150 x 150 cm).

3
Set

- 1 Ideal for medium formats. It adds less weight to the tile conveyor assembly when transporting medium-sized formats.
- 2 Retractable aluminum guide. Allows us to handle and transport tiles between 39 3/8" (100 cm) and 83" (210 cm) in size. Especially recommended for formats of up to 60x60" (150 x 150 cm), 1/4" or 5/16" (6 or 8 mm) thick, used diagonally.
- 3 Highly reinforced, adjustable and removable soft-grip handles. With an anti-twist and soft-grip system which ensures a better grip of the assembly.
- 4 2 interchangeable Ø8" (20 cm) suction cups, can be placed at any point on the guide.

- Suction cups with a safety indicator.
- Each suction cup, of Ø8" (20 cm) in diameter and with a high-load capacity, has an indicator that warns us in the event of a loss of suction.
- The suction cups have a protector to prevent damage during transport.

SLIM EASY TRANS SUPPLEMENTARY GUIDE SET / SLIM EASY TRANS PLUS

3
Set

- Slim Easy Trans has a set of perpendicular guides for increased stability.
- With the supplementary guide set we increase the maximum load capacity to 265 lb (120kg).
- Increases the rigidity of the unit.
- Facilitates handling of the pieces.
- Fast and easy to assemble and disassemble.
- Black anodized finish.

SLIM EASY TRANS / SLIM EASY TRANS PLUS SUPPLEMENTARY GUIDE SET	18819	SUPER PRO	1	1

VACUUM SUCTION PAD SLAB TRANS HEAVY DUTY N

3
Set

- The suction cup addition is an accessory compatible only with SLAB TRANS HEAVY DUTY N (Ref. 18982) transporter. The suction cup can be fixed to any type of surface without leaving a mark on the part. Its use allows the suction cups to be replaced while maintaining the original maximum load capacity of the transporter at all times.

SUPPLEMENTARY VACUUM SUCTION CUP FOR GUIDE SET	21955	PREMIUM	1

SLAB TRANS MINI SUPPORT FOR TABLE

3
Set

- Solely for use with the SLAB TRANS MINI and the SLAB TABLE.
- Helps to place the workpiece on the SLAB TABLE in the back buttering position without having to remove the conveyor.

	REF		
SLAB TRANS MINI SUPPORT FOR TABLE	16909	SUPERPRO	1

SLAB TROLLEY

RUBI

PATENTED

- Transport system and manoeuvre for large format tiles.
- Especially suitable for thicker/heavier slabs.
- Exclusive to the Slab trans HD and Slim easy trans systems.
- Easy and quick to assemble and disassemble. Easy fix connection system.
- Ultra light and compact.
- Extendable support arm for greater ergonomics when loading and unloading pieces on the workbench.
- Maximum load capacity: 309 lb (140 kg) (including material and trans system).

	REF

Set

SLAB TABLE

3
Set

PATENTED

- Workbench to support the cutting and preparation of large format materials using the tools of the Slab system range.
- Extra-reinforced bars thus increasing the rigidity of the workbench.
- The structure of the table together with the levelling feet achieves a greater stability of the set.
- Assembly and disassembly fast and easy. Easy fix connection system (hammerhead screws).
- Folding legs. Equipped with security system against involuntary closing.
- Dimensions in working position: 71"x41"x28" (180x104x70 mm).
- Dimensions in transport position: 71"x41"x8" (180x104x20mm).
- Working height: 27 4/7" (70 cm).
- Maximum load capacity: 551 lb (250 kg).
- Recommended using two Slab Table for porcelain panels.

	REF					
SLAB TABLE	18935	PREMIUM	76.1 Lb	79 Lb	1	9

SLAB A-FRAME

3
Set

PATENTED

- Transport system for large format tiles. Can be used with SLAB Trans Heavy Duty or SLIM Easy Trans.
- It can transport formats up to 126"x63" (320 cm x 160 cm).
- Large load capacity of 728 Lb (330 kg).
- Max load capacity of the hooks = 220 Lb (100 kg).
- Not compatible with supplementary guide set, they must be removed before hanging the carrier.

	REF			
SLAB A-FRAME	17900	SUPERPRO	1	5

SLAB VERSA-TILE TABLE

3
Set

PATENTED

- Work bench for cutting and handling large-format ceramic sheets, specifically designed for the SLAB range of tools.
- Thanks to the shape of the legs and its structure, the table is very stable and sturdy even in its widest position. The adjustable feet ensure this stability, even on uneven floors.
- Dimensions in working position: The table is extendable from 43 3/10" to 59 5/8" (1100 to 1515 mm), which allows you to handle the widest formats. Its length is 71" (1800 mm).
- Its folding legs and two side wheels make it easy to transport and store.
- Double working height: 27 9/16" and 33 1/6" (70 and 84 cm), which means it can be adapted to different needs, allowing all types of work to be carried out.
- Maximum load capacity: 573 lb (260 kg). Even the largest tiles can be loaded.
- Thanks to its two movable bars and wide T-shaped profiles, you can have a support surface that allows you to work as if on a workbench for the use of smaller tools, such as hand-held cutters, for example.

RUBI TRILLER

Compact manual vibrator.
Especially designed for vibrating large format tiles.

3
Set

- Compact manual vibrator especially designed for vibrating large format tiles.
- Expels the air trapped under the tile and maximises the adhesive coverage. [Do not use for a long period of time on the same tile to prevent the adhesive escaping.]
- Suitable for use on floor and wall tiles.
- Compact and light design weighing just 11 Lb (4.8 kg) to facilitate work on walls.
- Floating carbon steel chassis with vibration reduction system for greater user comfort.
- Easy to change, non-marking contact plate.
- Easy to operate tool with ergonomic double grip.
- Non-adjustable vibration frequency.
- Folded 1/16" (1.5 mm) steel sheet chassis, powder painted in red.
- Vibration plate made of PUR plastic, non-marking and easy to change.

EASY GRES drill bits 07/32" to 1/2" [6-12 mm.]

- Diamond drill bits to be used with electric drill without hammer.
- The quality of the diamond allows the drilling of ceramics, porcelain, granite, marble and glass.
- Ideal to install bathroom accessories and any type of decorative accessories over ceramic surfaces.
- They must always be used with the EASY GRES guide which allows their adequate refrigeration ensuring a high accuracy and good results.
- Average life between 5 and 10 holes depending on the material.
- Body made of steel and bit made of electrodeposited diamond.
- Lateral opening to improve cooling of the drill bit and to allow the elimination of solid waste produced after the drilling of the hole.
- Recommended speed of use between 400 and 1000 r.p.m. depending on the material to be drilled.
- To achieve a better finish and a longer life of the drill bit, it's important to observe the adequate speed of use and to apply a moderate pressure during the drilling. Supplied in blister.

EASY GRES drill bits 0 3/4" - 4 3/4"

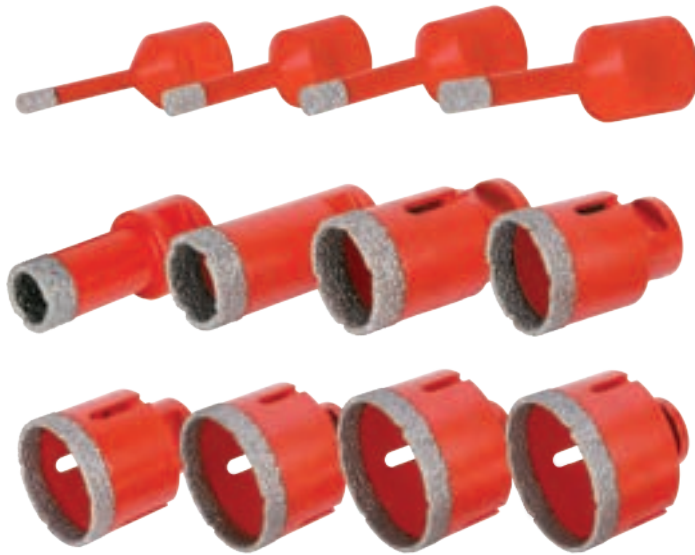

- Electroplated diamond drills for use with electric drill without hammer.
- The quality of the diamond permits drilling ceramic, porcelain, granite, marble and glass.
- Always use water-cooled.
- The use of the MULTIDRILL guide (Ref. 50944) and the water tank (Ref. 50947) to cool and prevent movement of the drill bit during drilling getting good finishes.
- The working speed varies between 400 and 1000 r.p.m., depending on the material to be drilled.
- Average life of 10 holes, depending on the material. Body in steel and electroplated diamond tips.
- Lateral opening for improved cooling and allow the removal of solid waste after each hole.
- For a better finishing and longer bit life, it is important to respect the right speed and moderate pressure during drilling.
- Supplied in blister.
- Certified for Dekton.

DRYGRES drill bits 4DRILL

- Specially designed for dry drilling in porcelain tile. Suitable for other ceramic materials, natural stone and artificial stone.
- With high resistant welding of the diamond grains for a longer duration.
- "Easy-Start" Without slipping. Suitable for work without a centering guide.
- Perfect for cordless drills (1000 - 2500 rpm)
- Reinforced body with grub screw for better performance and rigidity, thus maintaining the wax on the tip of the drill.
- High quality finish.
- Certified for Dekton.

RUBISCRAPER-250

RUBI

Electric grout scraper
For grout removal without damaging the tile.

1
Prepare

- 1** Ergonomic design and bi-material finishing, for greater comfort and better stability.
- 2** Light and resistant. Maximum reliability.
- 3** Blades made in tungsten carbide. Resharpenable for a greater performance. Patented model.
- 4** Fast locking / unlocking system for easy assembly of blade.

- Ideal for repair work (replacement of broken tiles).
- Equipped with 3 speeds. V1: 6500 i.p. / V2: 8000 i.p. / V3: 9500 i.p.
- Power: 250 W.
- Stroke length: 3/32" (2 mm).
- Double insulation.
- Blades for joints of 1/16" (1.5 mm) [ref. 66810, use only with speed 1] and 1/8" (3 mm) [ref. 66812] included.
- Includes 2 special blades [steel made] Ref. 66243 & 66244 to remove rests of thin-set from the back of the tiles or on the substrate.
- Transpot Case Included
- Interchangeable blades for 1/16"(1.5mm), 3/32" (2mm), 1/8" (3mm) and 3/16" (4 mm) joints.

Gel Duplex knee pads

3
Set

- Professional knee pads with ergonomic design. Highly comfortable.
- Their design combines the use of hard materials to protect against impacts and uneven floors and soft materials adaptable to the user's anatomy on the inside.
- Besides protecting the user's knees thanks to the silicone gel in their inside, their studied ergonomics gives them great stability, preventing ligaments and tendons fatigue.
- Wide range of uses thanks to their design "two in one":
- Can be used together with the external rubber protection of great stability and resistance.
- With the main body only, less bulky, which allows the knee to slide without problem over smooth surfaces.
- They incorporate a double fastener, inferior and superior, easy adjustable.
- Conforms to EN14404.
- Protection level: 1

	REF
